Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject tyranny, believing that rights should be protected, though we also believe said rights end where the rights of others begin.
Shockingly, we *do* use NS stats, with the exception of lifespan.

Monkey 4931 attempted to break the series of monkeys being killed in some way relating to John Wick, so he tried to crash a car he stole to die.

It was John Wick's car.

Monkey 4929 was a Graznavian Rebel Clan's soldier, who liked to kill unarmed Vulgarian civilians (usually women, children and old people) and play the Bloody Ball against them. Some day, he accepted the challenge from the Fist of Freedom to play the Bloody Ball match against them with his comrades: monkeys 4928, 4927, 4926, 4925, 4924, 4923, 4922, 4921, 4920, 4919, 4918, and 4917. He died in that match, like his other comrades: monkeys 4928, 4927, 4926, 4925, 4924, 4923, 4922, 4921, 4920, 4919, 4918, and 4917, killed during the match.

Monkey 4913 decided to build a bomb with Monkeys 4912, 4911, and 4910 to attack the headquarters of Instagram and Epic Games for Keanu Reeves.

The bomb was ignited in the lair by Monkey 4910, who was smoking. The blast only killed Monkey 4913, however.

Monkey 4912, who escaped the bomb blast, decided to make a nuclear bomb truck and drive it to the headquarters of Tiktok. He wasn't alone: He had GLA commander Rodall "Demo" Juhziz and his forces help him. Sadly, he died of radiation sickness before he was able to drive it, but the nuclear bomb is complete. The GLA, shortly after, took the bomb truck.

Monkey 4911 tried to convince Keanu Reeves that bombing Epic Games was a bad idea. This angered Keanu, so he made 4911 explode in a giant ball of glitches in the matrix and [insert references to John Wick and/or Cyberpunk 2077 here because I haven't seen/played either].

Monkey 4907 decided to replicate 4912's nuclear bomb truck. He succeeded, this time, and decided to drive it into Epic Games' HQ. Turns out he instead made it to the One World Trade Centre, and he blew that up instead, but not on purpose. Now, that area of New York is a radiation-filled crater.

Monkey 4908 was cut in half and thrown down an energy shaft, but survived due to the power of fanboys.

He spent the next 20 years hunting down the man who cut him in half, until he found him in the desert and died for real.

due to the power of fanboys.

He spent the next 20 years hunting down the man who cut him in half, until he found him in the desert and died for real.

Monkey 4905 attempted to curtail the misnumbering of monkeys. Reanu Keeves jumped out of Skyrim and drowned him in tea before he could succeed.

The monkey misnumbering was actually part of Monkey 4904's plot to end the Genocide. But Jebslund just had to mess it up, so he went after Jens "Jeb" Bergenstern of Mojang assuming that they were behind this. He was thus struck down by the Hammer of Jeb.
