All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

me you accept my tech.
Note: Before 2480, Olwe was called Athan. If you see this word in a thread, it's
because you mentioned a year incompatible with Olwe in that thread but still
made it open to all techs and therefore are allowing Athan's magic.
