Limp Bizkit: Garbage rap metal (I think?)

Lil Wayne: Commonly referred to as a crappy rapper, I believe.

So yeah, not surprising.

Muse-Hyper Music

Primal Fear - The Darkness

Don't be put off by the name. There are no vocals whatsoever in this song.

'tis overplayed, possibly?

Divercifix - Mark Of Cain

I want to support these guys somewhat, since they've got serious skills.

> I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
