One songs taken down a notch and two songs bumped a bit. Score remains at 8.8/10.

Another one that's one of the best on the album. Pretty much the same song as another but all done in this weird dark tweaked vocals...

7/10.

So...That's 3 albums already since I woke up at like...1 AM...or 2 AM (Fell asleep at like 7 PM). And I was going back to bed...

This Radiohead albums quite experimental, but I don't think I really enjoy it as much as some of their others.

Nadja - Radiance of Shadows

Cool name but the songs falls short... and I don't mean timewise, it's the longest song, 29 mintes. Title track and the worst song on the album.
