Johann Johannsson-Theme

Album I know best by him.

Also, this album has one of my favorite album names ever, And In The Endless Pause There Came The Sound Of Bees

Corrian
Post Kaiser

This one is a favorite of mine. Also, it was apparently used for an Eve Online video. Perfect for a game like that.

> I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
