Metallica - Creeping Death

Slaves! Hebrews born to serve to the pharaoh
Heed! To his every word, live in fear
Faith! Of the unknown one, the deliverer
Wait! Something must be done, four hundred years

So let it be written
So let it be done
I'm sent here by the chosen one

So let it be written
So let it be done
To kill the first born pharaoh son

Misanthropia - *The Light Bringer*

Dutch epic black metal.

> I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
