Benighted In Sodom - *Ocean Pt.1*

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

The title of that song aptly describes the majority of my posts in this forum, I'm afraid. But now for something completely differently:

I like it. Think I'll listen to this album after some more Dalek.

This is the most hip-hop I think I've ever intentionally listened to.
