Orange Tulip Conspiracy-Catafalque

This one seems kinda metal. Avant-garde bands seem to like throwing out metal, too.

Almost every single avant-garde band I have to go through seem to have some seriously weird songs. Secret Chiefs 3 to a lesser extent, but even they have some strange music. I guess avant-garde means throw out a ton of genres and be weird.

I guess Ulver wasn't THAT weird

I think I liked Cult of Luna musically but I couldn't really get into the vocals. Didn't listen to them much, though.

The Last of Us Soundtrack-The Choice

Listening to this again because this song is a very standout song to me, and I love it. I want to buy this soundtrack. I should of just pre-ordered the damn game. This song makes me emotional, especially after playing the game which has made me thoughtful and spacy all day.

I tried Cult of Luna various times but it's too slow.

Yes you should have pre-ordered the game. You've learned another life lesson now.

Slow doesn't bother me personally.

I don't usually pre-order games because my dad buys them day one anyway, but I wanted to pre-order that game so I could get the soundtrack. But oh well, I'll just buy it someday. I wouldn't be surprised if it was at a store.
