All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

A **24 civilization**, according to this index.   IC stats
WCoH 27 Finalists!
        Esparmuran is sparsely-populated, freezing wasteland north of the
Commonwealth of Crowns. If you like hockey, dog-sledding and clubbing seals,
                        you've come to the right place!
    Lead by our Prime Minister, Mr. Jim Oullie, a jolly old man who has no time for
                                your shenanigans.
