All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Karn Evil Nine is a horror-themed FT/FanT nation. Expect zombies, demons, eldritch abominations, monster clowns, vampires, werewolves, xenomorphs and possibly carnivorous/evil fairies. Because, you know, realism is overrated.
