> I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Look, this thread happens to be about music. These joke posts are undesirable and obnoxious.

The Cure - *Exploding Head Syndrome (4 Single Remix By 65 Days Of Static)*

> **CVT Temp wrote:**

It does say "What are you listening to?" in the title and doesn't really specify music, but I get your point.
