Razorback - The Last Man Standing

"But you're the last man standing on the battlefield
With your sword and your shield
You get the power and glory
For your victory now you're in history

After you are gone your legend lives on and on
For a thousand years or more long live the king, long live the king"

So glorious.

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
