Monkey 1591 also jumped on the bed and bashed his head on the roof. When he fell back down on the bed, it collapsed. Then the roof caved in and crushed Monkey 1591 to death. Finally, the broken bed crashed through the floor into the basement with Monkey 1591's corpse, breaking a water pipe which flooded the basement. it took divers several hours to recover the body. The autopsy revealed that the brain injury would have killed Monkey 1591 anyway.
