Shostakovich - *Symphony No. 12 In D Minor Op. 112 "The Year 1917"/"To The Memory Of Lenin", Razliv: Adagio*

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Perturbator - Eclipse

"We live in an era when our cities are armed with steel and concrete, computers and electronics barricade our minds. It doesn't change the fact that there exists a lot of strange phenomena bizarre beyond reason or logic. Most folks just don't see them..."

Perturbator - Naked Tongues (Feat. Memory Ghost's Isabella Goloversic)

4/5, would be better without vocals. I prefer my retro wave without vocals or with robotic vocals.
