All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

"Sha Shtil" - Gevolt

Answering the eternal question of what a cross between Rammstein and Yiddish folk music would sound like.

Are these "human rights" in the room with us right now?
