74-minute song, anyone?

Also, on a completely unimportant random note, apparently I have one of the top comments on this song, and I haven't even actually listened to the song yet.

Tech levels incompatible? Then kick me out of the thread, because if you RP with me you accept my tech.
Note: Before 2480, Olwe was called Athan. If you see this word in a thread, it's because you mentioned a year incompatible with Olwe in that thread but still made it open to all techs and therefore are allowing Athan's magic.

Well, that was weird. My Internet just completely died where I couldn't do anything with it with anything related to the Internet, but it very clearly said it was still connected....I shut down everything and start up the Internet again and it works fine.
