All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Men At Work - Down Under - 1981
Genre: New Wave, Pop Rock

I heard this song through Saints Row 2. How I dearly love that game. Just as another note this is different from Safety Dance - Men Without Hats
