> I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

[Sigur Ros-Kveikur](#)

Sounds definitely interesting. I believe the 3 track Sigur Ros EP comes out on Friday. Which anyone who bought a ticket automatically gets, I believe. I don't think I'll get it since I didn't buy a ticket, but cool that they do that. I can just hunt it down on the Internet ☐

One of my favorite songs ever.

MGMT-Weekend Wars

Edit: While talking about one of my favorite songs ever, I post I'm listening to one of my least favorite MGMT songs....
