Aretha Franklin – Respect

One of those songs I've heard my whole life but never knew who the
artist was.

I remember hearing this in a movie...*years* ago. That song was stuck
in my head for a month.
Ah, nostalgia.

IDM has a fairly noticeable sound, actually. Though usually I hear kinda "Complex" electronic for it, or whatever.

Here's an example of one I like. Though this might fit into more of the "ambient techno" description this album gets.

Though, for you, it might get a bit repetitive after 6 minutes. But I still dig the sounds going in it.

Looking at the song you listened to, people seem iffy about the "IDM" label for it. I guess I can kinda understand.

I love the "It's chillstep

No, it's IDM

No, witch house!"

This is what so many sub genres does

Autechre probably has a lot of others that fit for the "IDM", which is pretty...odd. I might be able to fish up more examples later.

Edit: Huh, Jon Hopkins gets classified with "IDM" as well, and I thought he was just more straightforward.

Though there's also "Microhouse", whatever the heck that is.

The guy also does completely unrelated soundtracks...that don't sound at all similar.

Try this

For some reason I always thought IDM sounded more like dubstep...weird.

Yeah, that one sounds a bit more ambient to me, which isn't really my thing.

RYM had the primary genre for that album as IDM, and secondaries as Glitch Hop, Wonky, and Microhouse (whatever the hell that is), which I think sounds about right.

That Jon Hopkins song is a little too long for me, but I dig it.
