Note: Before 2480, Olwe was called Athan. If you see this word in a thread, it's because you mentioned a year incompatible with Olwe in that thread but still made it open to all techs and therefore are allowing Athan's magic.

Captain Beefheart & His Magic Band - When Big Joan Sets Up

I didn't like this album at all first time I listened to it. Now I find myself really enjoying it. Eh.

### Secret Chiefs 3-The End Times

This band varies so much I'm not even sure what genre to put them under, or what playlist to put them into of mine.....I'll probably need to put them in like, 5 different one's because their style varies so much.

Edit: I guess I can just throw them under "Avant-garde"..

At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

"Somebody That I Used To Know"--Gotye

More like overhearing it from a distance really. When I was even less educated about modern music than I am now and I first heard ths song, it was the first time I ever called something just "alt" (at that point I didn't know that alternative was the actual genre of the song and was just struggling to find another classification). Good memories...good memories...
