Leæther Strip - *Japanese Bodies '92*

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Europe - Love Chaser

The last song of the original album. My version has 3 live bonus songs, The Final Countdown, Danger on the Track and Carrie, in that order.
