Monkey 5439 thought far too deeply about what happened to those 4000 monkeys between 5445 and 1444.

Monkey 5436 tried to rob a huntress in a red hood. The biggest piece of him
they found fit snugly in a thimble.

Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject
tyranny, believing that rights should be protected, though we also believe said
rights end where the rights of others begin.
Shockingly, we *do* use NS stats, with the exception of lifespan.

A Republic of China that allied with Japan against the USSR in WW2, stayed on
the mainland, mixed with the Dengist wing of the CPC, democratized. Now allied

And then one day you look in the mirror and you realize that you ain't you anymore. You're just another monster, and thanks to your actions, someone else will eventually become as warped and twisted as you. Never forget that the best of us are just the best of a bad lot. People tend to assume that Entrance of the Gladiators by Julius Fučík is what that ever so famous circus clown theme is. And in a way, it is. Nobody would ever argue with you on this fact.
However, if you want to be an unlikable, pedantic jerk, the song actually known to be circus music would be a version composed for American woodwind bands (and later transcribed for fairground organs) titled Thunder and Blazes, published by Louis-Philippe Laurendeau.
Of course, this information is of absolutely no consequence to anyone.
