Listening to the Samme Stof Som Stof album by Under Byen in its entirely again, I enjoyed it that much. I don't usually listen to a whole album again that quickly after just listening it.

Christ, where do you people find these bands with names like "Napalm Death" and "Venom"?

I suppose it takes a specific type to like that stuff.

Apparently right now it's...

Massive Attack - Teardrop

Lots of searching

I don't know anything about those 2, but my music varies quite widely. I can listen to ambient music, then go and listen to pretty heavy metal stuff.

That song is also a good song. I like Jose Gonzalez' cover quite a bit too. I heard his version first.

Karn Evil Nine is a horror-themed FT/FanT nation. Expect zombies, demons, eldritch abominations, monster clowns, vampires, werewolves, xenomorphs and possibly carnivorous/evil fairies. Because, you know, realism is overrated.
